Carbon Footprint

Electric by Default

Our electric fleet is standard across operations, covering 182,621 electric miles annually.

> 98% EV Delivery Consistency

Non-electric rental vehicles may be used when essential, such as breakdowns or repairs.

Less packaging, less waste, more reuse.

Sustainability is built into our everyday delivery.

1. Reusable baskets

Our wicker baskets return into our delivery process.

2. Plastic Reduction

No single-use plastics in the standard fruit service.

3. Redistribution

Surplus fruit supports charities and local communities.

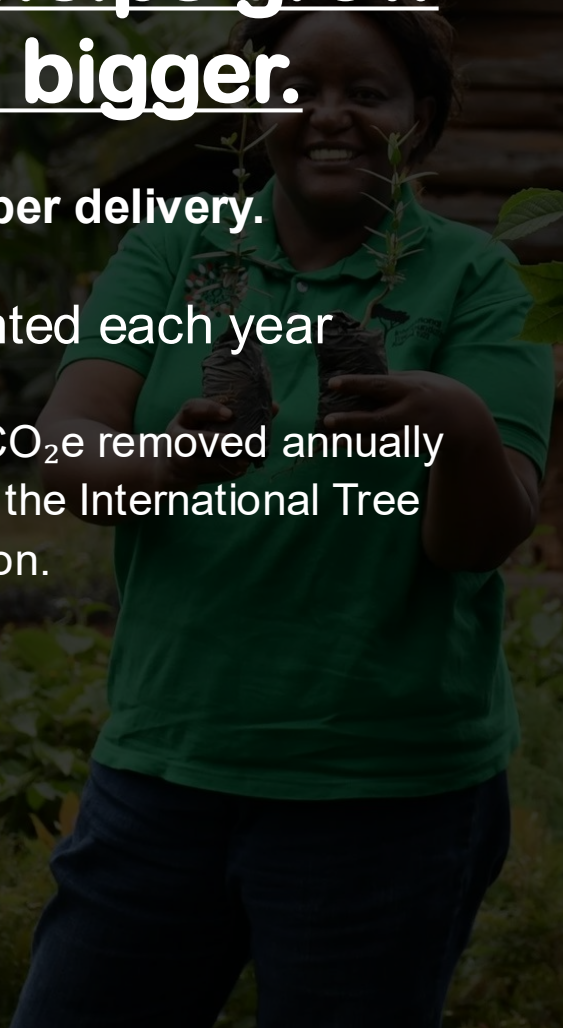

Every basket helps grow something bigger.

3 trees planted per delivery.

100,000+ trees planted each year

That's approximately 2,100 tCO₂e removed annually through our partnership with the International Tree Foundation.

How the carbon-negative figure is calculated.
